

NEW: medium L (50 042) – a medium for improving the flow properties of oil colours

With the new product „medium L“ from Schmincke completes its range of mediums for oil colours. Medium L allows to paint very „soft/ smoothly“ with oil colours: it improves the flow properties and reduces brush strokes retention in all kind of oil painting techniques. The painting medium also increases gloss and transparency of oil colours. In contrast to rich drying oils like linseed oil or stand linseed oil normally used for this purpose, it speeds the drying time.

Like all the other Schmincke oil mediums also medium L can be used with all the other oil colour assortments from Schmincke. Now an artist has some more options to change the behavior of **MUSSINI**[®] finest artists' resin oil colours, **NORMA**[®] Professional - finest artists' oil colours and **AKADEMIE**[®] Oil- fine artists' oil colours very individually.

Summary of white oil colours from Schmincke								
product name	art-no.	thinning	accelerates drying x fast/ xx very fast	retards drying	higher transparency	increases gloss	stabilizes consistency	improves flow properties
