

# FLUID SHAPES & LINES

"Wild Rose", 12"x12". Nitram Fusain Aquarelle, Nitram Liquid Charcoal and Nitram Bâtons on hot press paper

## NITRAM FUSAIN AQUARELLE

"My work is a semi-abstract interpretation of the natural world with a focus on fluid shapes and lines. It's the constant movement throughout the piece that I am interested in creating; to keep the eye lingering and coming back for more.

For this piece titled Wild Rose, I used three Nitram products: the new Nitram Aquarelle, Liquid Charcoal & Charcoal Bâtons. The performance of each product was remarkable. The particles of dry charcoal from the sticks were easy to blend and added detail and texture. The Liquid Charcoal and Aquarelle watercolor charcoal mediums dry well and the blacks retain their strength and density. I love the combination of depth and subtle softness."
